- Height 72 cm
- Desktops made from 25 mm thick melamine-faced board and available in a beech or pear finish. Straight edges protected by a 3 mm thick strip of ABS.
- Panel screens, 25 mm thick, height 120 cm, width 100 cm, available in a choice of colours and styles - graphite grey or pastel green melamine-faced screens in rectilinear and curved format, blue fabric-covered screens in curved format only. Fitted with stabilizer feet (adjustable through 10 mm).
- 3 mm thick metal brackets in aluminium or graphite grey for attachment of desktops to screens.
- Upper and lower perforated sheet steel panels, 1.2 mm thick and available in aluminium or graphite grey, designed to form a central column at the axis of 90° configurations. Acting as a link between screens, panels provide a discreet cable management facility and can be unclipped to allow access to wires and connections.

- **2 year guarantee.**
